## FRENCH FOR SPECIFIC PURPOSES

The French Institute in Kuwait offers French courses for specific purposes according to your professional occupation or personal needs. These courses are not designed for complete beginners. An assessment of your French proficiency level is required in order for us to be able to set up a custom-made program according to your personal needs and requirements.

These courses are given in groups (a minimum of 6 students) or in private (1 or 2 students), and end with an exam leading to a certification from the Chamber of Commerce and Industry in Paris (CCIP) or from the International Center for Studies in Education (CIEP).

## PRIVATE COURSES

The main priority of the French Institute in Kuwait is to meet the specific needs and requirements of its students. Therefore, the private courses have been especially designed to address this concern. The private courses are also given by highly qualified native French teachers.

## THE FRENCH INSTITUTE IN KUWAIT: AN EXAMS AND PLACEMENT TESTS CENTER

The French Institute is an exams center accredited by the Chamber of Commerce and Industry in Paris (CCIP) and from the International Center for Studies in Education (CIEP).

The General French courses allow students to pass the DELF (French Language Studies Diploma) and DALF (Advanced French Language Diploma) exams. No specific prior preparation is necessary because our courses are already based on the **Common European Framework for Languages progression.**

Students who wish to assess their level for university applications or for immigration to Canada, may pass the appropriate tests provided by the French Institute in Kuwait. They may pass the TCF (French Knowledge Test), the TCF-Quebec (French Knowledge Test for Quebec) delivered by the International Center for Studies in Education (CIEP), the E-TEF (French Evaluation Test in electronic format), and the E-TEF-Quebec delivered by the Chamber of Commerce and Industry in Paris. A level certification is delivered to them by the CCIP or the CIEP 3 to 4 weeks after the test.
